OUR TENANTS

< Kaffee Kirsche | Café

This Berlin café success story was founded in 2014. To this day, beans from around the world are roasted at Tempelhofer Damm — fresh, gently, and with great care. Coffee with soul — every person and every bean matters. The new location on Klosterstrasse will not only impress with outstanding coffee and cuisine but will also serve as a meeting point for the neighborhood.

< Limehome | Serviced Apartments

Limehome offers fully equipped design apartments in central locations across Europe, with over 350 properties in 13 countries. What makes it special is that the entire stay is conducted digitally — from booking to keyless check-in and check-out. At Sixty2, Limehome will operate 130 fully equipped apartments.

^ Capsule Hotel | Accomodation

Capsule hotels are becoming increasingly popular as demand grows for affordable short stays in central locations with urban attractions. These innovative hotels offer minimalist, functional accommodations at a fraction of the cost of traditional hotels. At Sixty2, an award-winning European pioneer in this hotel category will open a capsule hotel.

An exceptional fitness concept >

Sixty2 will soon become a go-to destination for all fitness enthusiasts. The offering from the studio operator, already successful in Munich, includes state-of-the-art strength training as well as complementary lifestyle programs. The studio will be open to both tenants and the general public.

AMIDST BERLIN MITTE

Sixty2 on Klosterstrasse 62 is located in the middle of the economic merger of Gendarmenmarkt, Alexanderplatz and the Mediaspree. A perfect symbiosis of all the factors that define Berlin: political center, start-up hub and cultural metropolis.

Klosterstrasse has always played a central role: it is one of the oldest streets in the Berlin-Mitte district. The name goes back to the Graues Kloster, a former Franciscan monastery with a socio-political function. The street is also named after the monastery quarter, where numerous architectural monuments are located – and it is framed by representative buildings such as the Old City Hall, the Parochial Church as well as the Dutch Embassy. Only a few steps away is the Rolandufer, a promenade with a green strip on the Spree, which connects Klosterstrasse and Mühlendamm with a walkway.

Alexanderplatz and the Nikolaiviertel can be reached by foot in a few minutes. The Klosterstrasse subway station directly in front of the building is connected to Alexanderplatz, which is one of the most important Berlin shopping locations and a central hub of the public transportation system.

MAKEOVER OF MODERNITY

The existing building is receiving a comprehensive makeover through a full renovation, an extension, and a new construction. With the expansion of the courtyard area and the addition of a mezzanine floor, a total of 7,200 m² of space is being created for a variety of uses.

In a further construction phase, the East building will be renovated and expanded with a new structure. The existing building along Stralauer Strasse and Waisenstrasse will be redesigned, creating modern, state-of-the-art workspaces. In addition, the existing building will be enlarged through the new extension, visually enclosing the structure. This will provide additional space as well as striking architecture, including a representative entrance on Waisenstrasse.

In a world which is becoming increasingly transient it is only enduring architecture which can meet the ever-changing requirements. Architecture which is valuable, aesthetic, and user-friendly can age gracefully and contribute to an authentic and livable environment.

To this end, we place great importance on innovative and precise solutions at each step of the planning and construction process.
